EXPERIENCE

Associate Software Consultant (QA)

Dec. 2025 — Present

Qestit

Egypt

CIB T24 Core Upgrade Program — Interfaces Track

- Leading the Interfaces Track during SIT phase, collaborating with the bank's technical teams to identify and validate interfaces touchpoints with T24.
- Covering T24 integrations with the bank's interfaces through ESB (middleware) via **SOAP** APIs, direct T24 **RESTful** APIs, **MQ** (Message Queue), and file-based operations, and designing test cases for these scenarios.
- Ensuring integration quality during the SIT phase by validating the behavior and data flow of T24 integration touchpoints before and after the upgrade, identifying and documenting defects in JIRA.

Boubyan Bank — T24 Database Migration

- Validated the database migration from **iMAL** to **Temenos T24** through data verification and reconciliation using SQL, with supporting Python and JavaScript scripts.

Freelance Developer

Jul. 2024 – Present

Upwork & Direct Clients

Ambivio Bridge

- Developed a cross-platform Electron.js desktop bridge for **Ambivio** (a German medical startup), enabling data extraction from intelligent on-hover screenshots to help doctors transition from legacy systems.
- Integrated a local GPU-accelerated **Moondream2** model (Hugging Face) via Python for privacy-preserving NLP, with automatic fallback to cloud inference when necessary.
- Implemented a custom, always-on-top floating widget with smooth animations, full-screen capture, window metadata extraction (**C++/Python**), and real-time communication via **Socket.io**.

HST Website

- Developed a full-featured camp management and reservation platform for handling registrations, applicant tracking, customizable camp forms, and acceptance workflows for Helio Sports Team.
- Integrated the **Kashier API** to support secure online payments, including both full-payment and custom installment-based payment flows managed directly through the platform.
- Built the backend infrastructure using **Supabase** and **Supabase Edge Functions**, enabling scalable data management, secure server-side logic, and real-time administrative operations.
- Integrated **MailerSend** for bulk email delivery and implemented a tracking system to monitor failed emails, allowing administrators to resend messages manually or correct invalid email addresses through the dashboard.

HST Interactive Games

- Developed interactive mobile and desktop games for HST, including a real-world **RISK-inspired** strategy game and a **Jumanji-themed** quest game featuring QR-based challenges and location-based gameplay.
- Implemented real-time multiplayer synchronization using **Socket.io**, with dynamic **Mapbox** maps, team/territory tracking, and an admin dashboard for managing game state and configurations.
- Integrated **React Viro** for augmented reality quests and **Firebase/Expo Notifications** for cross-platform real-time notifications and gameplay updates.

Client Projects via Upwork

- Delivered cross-platform applications for clients in **Germany, Lebanon, Australia, and Pakistan**, tailored for mobile, web, and desktop platforms using technologies like React, Firebase, Node.js, and Electron.js.
- Developed production-ready apps that directly supported startups—such as building a marketing site that helped an Australian client attract more customers.
- Built long-term client relationships through iterative updates and professional communication, earning **5-star reviews** and repeat contracts on Upwork.

React Native Developer

Jun. 2025 – Aug. 2025

Quantech (Saudi Arabia)

Remote

- Developed multiple cross-platform mobile applications with multi-interface support, optimized for performance and seamless user experience across iOS and Android.

- Integrated RESTful APIs and implemented efficient state management using **Zustand**, improving code maintainability and performance.
- Implemented **English & Arabic localization** with full **LTR and RTL support**, enhancing accessibility for international users.

Freelance Training AI Models

Oct. 2024 – Mar. 2025

Outlier AI, DataAnnotation

Remote

- Evaluate and refine AI-generated code, technical responses, API calls as well as English & Arabic responses for large language models, enhancing accuracy and performance
- Develop challenging prompts to intentionally push AI models to failure, facilitating improvements in learning and problem-solving abilities

Charge Support Intern

Jul. 2024 – Aug. 2024

Vodafone

Smart Village, Egypt

- Gained a solid understanding of Ericsson's charging server solutions, including SDP and AIR, while participating in a mini hackathon and attending professional development training sessions

PROJECTS

Motion Lab

Sep. 2024 – Jun. 2025

- Developed as my **graduation project**: a full-stack web app that extracts 3D motion from video (multi-person support) using MediaPipe for pose estimation and a PyTorch model for Z-coordinate recovery
- Supports customizable character creation and dynamic retargeting of extracted motion to user-defined 3D avatars
- Visualizes both BVH and GLB animations in-browser using Three.js, with export options compatible with Blender, Maya, Unity and other animation tools
- Provides a budget-friendly, trackerless motion capture alternative for animators and indie game developers

Virtual Mouse

May 2024 – Jun. 2024

- Created a virtual mouse system controlled by hand gestures, enabling movement, dragging, clicking, and scrolling
- Leveraged Kivy for UI, OpenCV with MediaPipe for hand-tracking and TensorFlow for gesture recognition

Bitcoin Price Prediction

May 2024 – Jun. 2024

- Built a time series prediction model for Bitcoin prices using multiple machine learning models
- Applied Random Forest, SVR, XGBoost, ARIMA, and Prophet for predictions

EDUCATION

Misr International University

Cairo, Egypt

Bachelor of Computer Science, Major in Artificial Intelligence. (Honors, GPA: 3.4)

Oct. 2021 – Jun. 2025

New Ramses College

Cairo, Egypt

IGCSE, 99.4%

Sep. 2009 – June 2021

ACTIVITIES & INTERESTS

Writing: Won 2nd place in the MIU English Short Story Competition 2023

Sports: Current Captain of Flicking Pharaohs, an Ultimate Frisbee team in Egypt

Volunteering: Member of Helio Sports Team and Focus Sports Camp 2023 & 2024 committees, organizing sports camps for juniors, youth, adults, and families.

ADDITIONAL INFORMATION

Military Status: Exempted
